At a glance ...

Ten good reasons for using LAMATOR quality products

- 1.** LAMATOR uses exclusively top-quality quenched and tempered steels.
- 2.** All LAMATOR tines are shot-peened for perfection.
- 3.** From LAMATOR, one tine is identical to the next.
- 4.** LAMATOR clamps ensure that LAMATOR tines are secured totally.
- 5.** LAMATOR points fit precisely onto LAMATOR tines.
- 6.** LAMATOR apply consistent and complete quality management, from the raw material right through to the finished product.
- 7.** At LAMATOR, highly qualified and skilled personnel create products of the very highest quality.
- 8.** LAMATOR staff have decades of experience to draw on.
- 9.** LAMATOR tines do their job for a lot of years without any problems. They are reliable.
- 10.** LAMATOR customers are satisfied customers.

Prove it for yourself.

We look forward to your order.

We do exactly what we promise.

... for more than 100 years

For us, first-class quality is the highest priority of all.
